

AI-Powered Environmental Verification Platform

This certificate confirms that the submitted evidence has been analyzed using VisionLedger's AI verification engine and permanently anchored on the Ethereum Sepolia blockchain.

■ CERTIFICATE INFORMATION		■ AI VERIFICATION SUMMARY	
■ Certificate ID	CLM-CE330D	■ REASONING The image displays a large area populated with numerous young pine trees planted in a relatively uniform manner, characteristic of a tree plantation or reforestation project. ■ DETECTED OBJECTS young pine trees 98% grass 95% field 93% ■ LIMITATIONS The exact boundaries of the plantation are not visible, and the total number of trees cannot be precisely counted from this single perspective. ■ RECOMMENDATION The image strongly supports the claim of a tree plantation. No further verification needed for the general claim.	
■ Claim ID	6ebc9c1b-d88b-499c-975c-bee1f289fe41		
♣ Claim Type	Tree Plantation		
■ Verification Status	✓ Verified		
≡ Confidence Score	95.0%		
# Estimated Quantity	25		
■ Issue Date	July 11, 2026		
■ Verification Time	10:49:44 UTC
